

# WASTE TO ENERGY

ASL Print in 2017 converted the following amount of garbage into energy, which is equivalent to powering the following number of homes in a month!

GARBAGE PER YEAR 

**3,534**  
METRIC TONS

 ENERGY TO POWER

**2,028**

HOMES FOR ONE MONTH

## THE ENERGY PROCESS

Instead of a traditional landfill, there exist a waste-to-energy facility that incinerates garbage, transforming chemical energy to thermal energy.
